Bhavans Tripura Vidyamandir   **March 2018**
High School   *Percentage: 87.6%*

Experience

Entrepreneurship Cell - NIT Agartala   **June 2022 – Present**
Design Lead   *Tripura, India*

- Exemplarily crafted a captivating and fully responsive website for the prestigious flagship event, *Carpediem 3.0*. The website featured an engaging Interactive Landing Page that instantly grabbed visitors' attention, and a seamlessly designed Events Page, enabling effortless access to event details and seamless registration for enthusiastic students.

Andoid Developer Intern   **December 2023 – January 2024**
Qur8   *Tripura, India*

- Developed a cross-platform mobile application using React Native, giving a seamless experience on Android devices.
- Implemented user authentication features, including sign-in and sign-up functionalities, utilizing Redux Toolkit for state management, ensuring robust and efficient data handling.
- Conducted comprehensive testing and debugging to ensure application stability and performance

Projects

7Creatives Agency Website | *ReactJs , NextJs , SaaS* | ⌨ Source Code | 🔗 Live

- Developed a single page dynamic Agency website using ReactJs, SaaS, and NextJs. Designed engaging sections including a hero, contact, blog, services, team, and showcase pages. The website showcases comprehensive details about the company "7creatives," aiding audience engagement and customer acquisition.
- Leveraged ReactJS for seamless user interfaces, SASS for efficient styling, and Next.js for enhanced performance. Constructed various pages offering insights into the company, promoting engagement and new client connections.

Ride Booking Website | *ReactJS, Tailwind CSS, Firebase* | ⌨ Source Code | 🔗 Live

- Designed an innovative Ride Booking Platform, empowering users to choose destinations and waypoints for themselves or companions effortlessly. Integrated Firebase for secure user authentication and implemented Razorpay as the payment gateway, ensuring a seamless and secure booking experience.
- Collaborated with my team as part of the second round of the inDrive Hackathon by using Git and Github and deployed it on Vercel.

Youtube Clone | *ReactJS, Tailwind CSS, Firebase* | ⌨ Source Code | 🔗 Live

- Enabled real-time updates and management of restaurant and food reviews using ReactJS. Ensured an optimal viewing experience across various devices with a responsive layout.

Achievements

- Secured All India Rank 5 in **INNOVATRIX**, a hackathon organized by NSEC Kolkata.
- Got Special Mention in **DubsTech Protothon 2023.**
- Qualified for the 2nd Round of **inCode 2023** , a hackathon organized by inDrive
